Response to Amendment

Claims 11-30 of this application has been copied from U.S. Patent No. 6,192,891 for the purpose of an interference.

Applicant has failed to explain how at least one of the claims which were in the application, or in a parent application, prior to expiration of the one-year period was for “substantially the same subject matter” as at least one of the claims of the patent.

“If the claim presented or identified as corresponding to the proposed count was added to the application by an amendment filed more than one year after issuance of the patent, or the application was not filed until more than one year after issuance of the patent (but the patent is not a statutory bar), then under the provisions of 35 U.S.C. 135(b), an interference will not be declared unless at least one of the claims which were in the application, or in a parent application, prior to expiration of the one-year period was for “substantially the same subject matter” as at least one of the claims of the patent. Therefore, 37 CFR 1.607(a)(6) requires that the request for interference with the patent include an explanation of how the requirements of 35 U.S.C. 135(b) are met.” See M.P.E.P. § 2307, Applicant Requests Interference With a Patent and 37 CFR 1.607. R

See also, *In re Berger*, 61 USPQ2d 1523. The court in *Berger* found that claims filed outside the year cannot differ "in any material limitation" from claims filed within the year.

Applicant is given ONE MONTH or THIRTY DAYS, whichever is longer, to explain how the requirements of 35 U.S.C. 135(b) are met. THE PROVISIONS OF 37 CFR 1.136 DO NOT APPLY TO THE TIME SPECIFIED IN THIS ACTION.
